CONCEPT

CONCEPT premium brand

Nedostatak vremena za predah od svakodnevnih problema sa kojima se susrećemo, doveli su do toga da se o prostoru namenjenom za ličnu higijenu i opuštanje sve manje vodi računa. Naša želja je bila da to promenimo i da od kupatilskog prostora napravimo oazu skrivenu od buke i stresa.

*Rezultat svih tih promišljanja je pred Vama - **CONCEPT premium brand***

CONCEPT SOLILUX KADICE

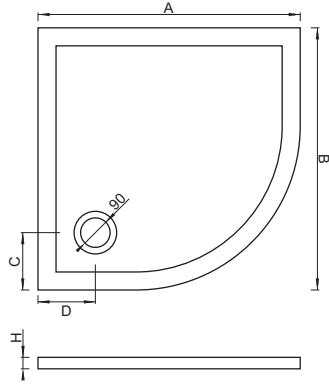

Prateći svetske trendove vezane za ekologiju i zaštitu prirodne sredine

CONCEPT premium brend je rešio da promeni dosadašnji pristup izrade tuš kadica i okrenuo se **SOLILUX** materijalu koji apsolutno zadovoljava svetske standarde, a tuš kadicama daje mnogo lepši izgled sa jačom strukturom i lakšim načinom održavanja.

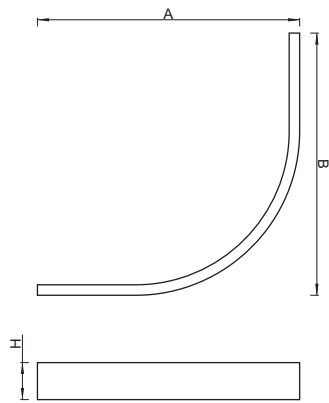

Već dugi niz godina ova vrsta materijala je prisutna na japanskom i američkom tržištu, i zbog svojih karakteristika drži dominantnu poziciju ne samo u proizvodnji kadica već i sudopera, kada, kupatilskih zidova i panela. **SOLILUX** je materijal sačinjen od jedinjenja fiberglasa, specijalne smole, pigmenta i prirodnog ispunjivača, a kombinacija visokog pritiska i temperature od 160 stepeni u procesu same izrade, daje rezultat apsolutnog kvaliteta i dugotrajnosti.

Da biste imali bolji uvid u kvalitet **SOLILUX** kadica navešćemo vam razlike u odnosu na obične keramičke ili emajlirane kadice:

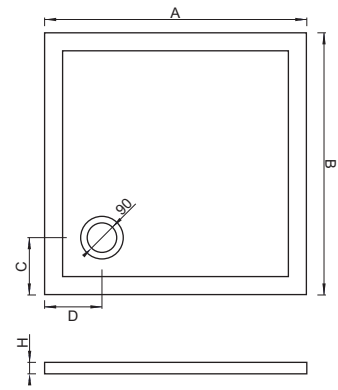

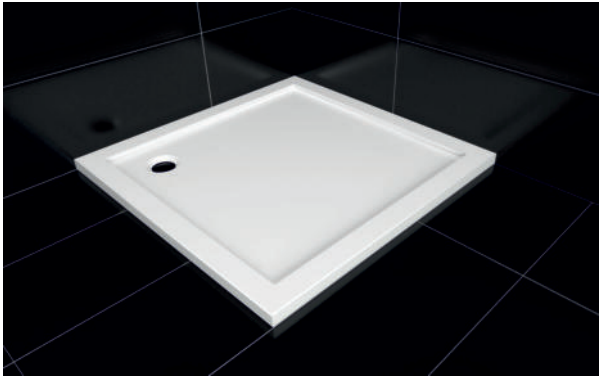

- **SOLILUX** kadica je lakša nego kadica od klasične smole
- **SOLILUX** kadica ima veći otpor na udarce od akrilnih kadica i zato teže dolazi do ogrebotina i oštećenja
- **SOLILUX** kadice ne menjaju boju tokom vremena
- **SOLILUX** kadica daje osećaj topline prilikom dodira
- **SOLILUX** kadice su ravne na poleđini i time su lakše za montažu i ugradnju
- **SOLILUX** kadica nikada neće zarđati
- U proizvodnji **SOLILUX** kadica se ne troši puno energije i mogu se reciklirati, za razliku od klasičnih keramičkih kadica.
